

## **6322AU W/less Vantage Pro2™ Integrated Sensor Suite**

For use with Vantage Pro2 and Vantage Vue consoles, Weather Envoy and WeatherLink. Our innovative integrated sensor suite combines our rain collector, temperature and humidity sensors, and anemometer into one package—making setup easier than ever and improving performance and reliability.

For improved accuracy, temperature and humidity sensors are housed inside a radiation shield. The shield protects against solar radiation and other sources of radiated and reflected heat.

Compatible with Vantage Pro2 and Vantage Vue only.
